

Our Innovation: Incorporation on FLO Blockchain

Economics and Organization

RanchiMall **innovated the concept** of incorporation on the blockchain.

It means RanchiMall is bound by all **commitments** it makes **on the blockchain.**

What is incorporation:
It's **fixing the rule of association** under
Articles of Association, and some
description of business under
Memorandum of Understanding.

There are clear obligations and limitations of each equity contributor. So we **replicate the same process** in the blockchain.

And then we **split that contract** and permit every equity participant **buy a part of contract** through a token sale.

The message text reads: 'Ranchi Mall Startup Blockchain Contract(RSBC) authorizes creation of ChainServe, a blockchain incorporated startup incubated under Silicon Valley to Ranchi program. ChainServe will be incorporated using 100000 tokens at FLO Address FKdzQawAD5P2wfW95jGmrDRssdkK9r1Ngc. RSBC will manage token allocations until 100% of tokens are allocated. The five founders Vishal Kumar Singh, Tushit Verma, Bhartendu Kunal, Abhijeet Sinha, Saket Anand will each receive 5000 tokens at their authorized FLO Address at incorporation. RSBC will purchase 5000 tokens for a consideration of INR Rs 50000/- valuing ChainServe initially at INR Rs 10 Lakhs. Remaining 70000 tokens will remain unallocated with the purpose of distributing it among the best performing founders as determined by Ranchi Mall assuming founders need no further capital. If further capital is required, then ChainServe unallocated tokens will be issued to capital provider at future valuations to the extent of capital raised.' The timestamp is '9:00:34 2019. 04. 22'.
